Daily Chain-of-Custody Log

The habit that wins contracts. Keep your own log even when the client has an app — the courier with documentation keeps the contract.

Courier: _____

Date: _____

Vehicle: _____

Time	Pickup location	Recipient / Lab	# Items	Temp °	Delivered ✓

Non-negotiables: log every pickup and delivery · note any specimen received in poor condition · record temperature for all refrigerated/cold-chain runs · lock the vehicle at every stop · report any misdelivery, spill, or temperature excursion to the client immediately and note it here.
